
Automatic Level

GX-AL

Improved structure of rack and gear system avoid dislocation.

Reliable air-dumping wire-hung compensator with X wire design.

Excellent sealed structure for using in any weather conditions.

5/8" x 11 thread to fit standard tripod, suitable for both flat and dome head tripod.

Automatic Level **GX-AL**

Technical Parameters

Model:	GX-AL20	GX-AL24	GX-AL28	GX-AL32
Magnification:	20X	24X	28X	32X
Standard deviation for 1 km double run levelling:	2,5mm	2,0mm	1,5mm	1,0mm
Objective aperture:	38mm			
Field of view:	1°20'			
Shortest focus distance:	0,3m			
Compensator type:	wire-hung and magnetic-dumping			
Working range of compensator:	±15"			
Levelling accuracy:	±0,5"			
Circular vial:	8'/2mm			
Horizontal circle:	360° or 400G option			
Weight:	1,4KG			
Standard outfit:	Automatic level, plumb bob, adjusting wrench, instructions manual, plastic carrying case
